Confederate Numbers in the War.

An abstract of the returns of the Confederate armies show, that the greatest number of soldiers of all arms and ranks on the rolls at any one time was 550,000; the greatest number present for duty at any one time 3. How many epistles are entirely with- was 300,000, and then only for a brief period, besides a few thousands rangers. At only three periods did Lee's army number 100,000 present for duty. When McClelland with 147,000 men feared to advance towards Manassas, supposing the enemy had 150,000 men, their actual force was less than 40,000. When McClelland reached the peninsula and was held in check at Yorktown by Magruder with what he supposed to be the whole rebel army, Magruder had barely 15,-000. When he reached the Chickahominy with over 100,000 men, and feared to advance language-in what books are they written? because he estimated the enemy's force at Assets July 1st, \$1,750,000 8. In closing benedictions how many over 200,000, they had but 46,000, which was increased in May to 67,000. When Meade reached Rappahannock, after Gettys burg, with 60,000 men, Lee had but 15,000 10. MEDICAL.

The Latest and Most Improved Discovery of the Rineteenth Century.

No man's name is more intimately connected with the history of Materia Medica in the United States or more favorably known as a sinuser in medical discovery than that of Dr. John Burt, of Lowisville, Ky. His lumitable preparation of SARNAPARTILIA has long second at the head of the various compounds of that valuable drug.

His Compound or With Thermy has become a household word throughout the West and south.

His Worm Loreworm, in less than a year after their introduction, attained a reputation as wide spread as the continuent of North America. But the crowning glory of his life remains to be attained in his Latzer discovery, or rather combination, for he does not craim to be the discoverer of CED-BON, which is the basis of the BITTERS now offered to the public. That honor belongs to the mative inhabitants of CEN-TRAL AMERICA, to whom its virtues have been known for more than two hundred years. A rance with it the Indian bids persance to the Mest offered years. A rance with it the Indian bids persance to the most remained surposts. It is a laties with them that as long as there is Bragili to the body the CEDBION is potent to case, no matter what the disease may be. While DR. BUILL is not prepared to endorse the extravagant pretension, has a record and preventive for all diseases arising from exposure, either to changes of weather and climate or to the minamatic influence, it STANDS WITHOUT A RIVAL and another and entered. No man's name is more intimately connectchanges of weather and climate or to the minimatic influ see, it STANDS WITHOUT A RIVAL, and justly de arres the reputation it has so long enjoyed in Central American as and the West Indies.

IN DYSPEPSIA and its attendant train of symptoms, it icts more like a charm than a medicine.

There is nothing in he range of Stateria Medica that can for a moment bear a comparison with it is this disease.

A FUEL account of this wonderful plant may be found in the lith edition of the U.S. Dispension, on pages 1387 and 1388.

A series of experiments in which Dr. BULL has been for ears ongaged, has just been brought to a successful termination, and he is now enabled to offer to the public arombination of CEDRON with other approved tonics, the whole preserved in the best quality of coppure negatives. Bourbon Whisky, in the best quality of coppun histilian few hole preserve which he is confident has NO EQUAL IN THE WORLD. He might furnish a volume of certificates, but the publishes long since learned to estimate such things at their travalue. The shfost plan is for every one to test for himself the victue of a new medicine.

Give the Cedron Bitters one Trial. And you WILL NEVER use any others. It is not necessary to publish a long list of diseases of which the CEDRON BITTERS are a specific. In ALL diseases of the STOMACH, BOWFLS, LIVER, OR KIDNEYS; IN ALL AFFECTIONS OF THE BRAIN, depending upon derangement of the Stemach and bowein; in GOUT, RHEI-MATISM AND NEURALGIA, and in FEVER AND AGUE.
